IFTA/IRP Planned System Outage

The IRP and IFTA registration systems will be unavailable beginning at 5 p.m., May 26, 2017 until Thursday June 1, 2017. This will impact both on-line applications and those filed at the Oklahoma Corporation Commission's Transportation Division.

This action is necessary to implement the new IFTA online system, which will save motor carriers time and money.

While the system is down, no IRP registrations, trip permits, unladen permits**, fuel permits**, IFTA quarterly returns, IFTA licenses or IFTA decals can be processed/issued either on-line or at the Transportation Division offices. We apologize for the inconvenience.**

If you have questions, please call 405-521-3036.

****Note – It is possible that capability to do trip permits, unladen permits and fuel permits will be restored sooner than June 1. If that happens, the announcement will be posted to the OCC home page (www.occeweb.com) and the OCC Transportation Division's Trucking page (<http://www.occeweb.com/tr/Trucking.htm>).**
