ACTIVE OIL AND GAS OPERATOR DIRECTORY

Use this database to look up an operator's contact information. You can also look up their operator number by name so you can use it to browse other databases.

When you get to our home page, hold your cursor over the gold button at the top of the screen labeled "Divisions." Don't click but move your cursor down the menu to "Oil and Gas" then move it over to the menu that appears to the right and click on "Data Files".

The screenshot shows the Oklahoma Corporation Commission website. At the top, there is a navigation bar with the following links: OCC Home, About Us, Industry, Consumers, Divisions, Complaints, Conducting Business, and Dockets & Agendas. The "Divisions" link is highlighted, and a dropdown menu is visible. The menu items are: Administration, Administrative Proceedings, Consumer Services, General Counsel, Information Technology, Oil and Gas, Petroleum Storage Tank, Public Utility, Transportation, Annual Reports, Brownfields, Complaint Form, Databases, Data Files, Departments, District Offices, Electronic Forms, Forms, Imaged Documents, Other Info, Publications, and Rules. The "Data Files" option is highlighted in yellow. Below the navigation bar, there are portraits of Commissioner Todd Hiatt and Chairman Bob Anderson. The "Hot Topics" section includes: OCC response to issue of induced seismicity, Pipeline Safety Notice, Wind Power Notice, PSO Rate Case, Presentations of EPA, DEQ and SPP regarding the EPA's proposed "Clean Power Plan", and FBI warns of utility scam.

The Oil and Gas Operator Directory is number five on the list. Click on the file name to open it.

The operator directory is updated around the middle of each month and lists all oil and gas well operators in Oklahoma that have current surety on file with the Oil & Gas Division. Even though the company may still be operating wells, if their surety has lapsed or their annual update is late, they will not be listed.

You can activate a find feature on this database by using the “control f” function.

OCC OIL AND GAS WELL BROWSE DATABASE INSTRUCTIONS

This database is used to look up all wells, old and new, the associated well records, and gas volumes if the well is classified as a gas well.

When you get to our home page, hold your cursor over the gold button at the top of the screen labeled "Divisions". Don't click but move your cursor down the menu to "Oil and Gas" then move it over to the menu that appears to the right and click on "Databases".

On the next screen, scroll down and click on “Well Browse Database”.

www.occeweb.com/Orawebapps/OCCOraWebAppsone.html

- If you have any questions, you may call our helpline at (405)521-3636 between the hours of 8:00 am to 4:30 pm Monday through Friday.
- You will be prompted to download JInitiator the first time you use our web applications. This is required to run the Case Processing and Archived Oil and Gas Database. Left click the bar that appears and tell it to run the ActiveX control.

--	--	--	---

When you get to the well query page, you can search by well name, API number, or section, township, and range. Remember that, as with most OCC databases, the less information provided, the better your search results will be.

You will usually search by legal description. Go to the bottom of this form and enter the section, township, and range. It is not necessary to enter the county if you know the legal description unless the property about which you are inquiring is in the panhandle. If so, choose the county. The database cannot differentiate between 4N-10E in Hughes County from 4N-10E in Texas County without knowing the county, even if you enter the meridian. If any portion of your legal description is a single digit number, add a leading zero.

OCC records are filed by surface hole location, however, you can search for horizontal wells by bottom hole location once the well completion report, Form 1002A, has been filed.

System.

Change page: < ≥ | Displaying page 1 of 2, items 1 to 10 of 17.

To retrieve information about a particular well, click on the magnifying glass icon all the way on the left side of the line on which the well name appears. This should take you to a screen that displays the well operator and other basic well information. If it doesn't and you only see a larger image of the previous screen, hold down "Control" and "Alt" at the same time you click on the magnifying glass to override your pop-up blocker.

OCC OIL AND GAS DATA MINING INSTRUCTIONS

Use this database to look up operator and well information including historical gas production volumes.

When you get to our home page hold your cursor over the gold button at the top of the screen labeled "Divisions." Don't click but move your cursor down the menu to "Oil and Gas" then move it over to the menu that appears to the right and click on "Databases".

The screenshot shows the Oklahoma Corporation Commission website. The browser address bar displays <http://www.occeweb.com/>. The website header features the Seal of the State of Oklahoma and the text "OKLAHOMA CORPORATION COMMISSION". A navigation bar contains the following links: OCC Home, About Us, Industry, Consumers, Divisions, Complaints, Conducting Business, and Dockets & Agendas. The "Divisions" menu is open, showing a list of options: Administration, Administrative Proceedings, Consumer Services, General Counsel, Information Technology, Oil and Gas, Petroleum Storage Tax, Public Utility, and Transportation. A secondary menu is visible to the right of the "Oil and Gas" option, listing: Annual Reports, Brownfields, Complaint Form, Databases, Data Files, Departments, District Offices, Electronic Forms, Forms, Imaged Documents, Other Info, Publications, and Rules. The "Databases" option is highlighted. Below the navigation bar, there are portraits of Commissioner Todd Hiatt and Chairman Bob Anderson. A "Hot Topics" section lists several items: "OCC response to issue of induced...", "Pipeline Safety Notice", "Wind Power Notice", "PSO Rate Case", "Presentations of EPA, DEQ and SPP regarding the EPA's proposed 'Clean Power Plan'", and "FBI warns of utility scam". The browser's status bar at the bottom shows the URL <http://www.occeweb.com/Orawebapps/OCCOraWebAppspone.html>.

On the next screen, scroll down and click on “Oil and Gas Data Mining”.

The screenshot shows a web browser window with the URL www.occeweb.com/Orawebapps/OCCOraWebAppssone.html. The page content includes:

- If you have any questions, you may call our helpline at (405)521-3636 between the hours of 8:00 am to 4:30 pm Monday through Friday.
- You will be prompted to download JInitiator the first time you use our web applications. This is required to run the Case Processing and Archived Oil and Gas Database. Left click the bar that appears and tell it to run the ActiveX control.

Development support provided by: the [U.S. De](#)

You can also click “Switch to Advanced Filter” to use more specific search functions. To look up a well operator in order to get their contact or other information, the easiest way is to enter their operator number which can be retrieved from the Active Oil and Gas Operator Directory.

Enter an operator number in the appropriate field and click “Find”

Because a company’s well number is associated with all its wells, all the wells come up in the search results but click on the link to “Companies” then the company name to get company information.

To look up information about a particular well, enter the well's API number or the legal description. It's often best to search by legal description because most royalty owners don't know their wells' API numbers and if there is more than one well in your section you can pull them all up at once. Searching by API number will only pull up one well.

From the same screen we used in the previous exercise to look up well operator information, enter a section, township, and range in the appropriate fields and click "Find." Click on the "+" to display the wells. Click on the well you are interested in. There is a glitch with the database here. As you can see, sometimes the well name is not displayed, but the API# and the well number are. Also, sometimes there is more than one entry for the same well. If you are looking for gas production volumes and don't find them under one entry, try the other one.

OCC IMAGED RECORDS DATABASE INSTRUCTIONS

This database is used to retrieve copies of imaged Commission records including well records, orders, applications, oil production reports, electric logs, etc.

When you get to our home page, hold your cursor over the gold button at the top of the screen labeled "Divisions", Don't click but move your cursor down the menu to "Oil and Gas" then move it over to the menu that appears to the right and click on "Imaged Documents".

The screenshot shows the Oklahoma Corporation Commission website. The browser address bar displays <http://www.occeweb.com/>. The website header features the Seal of the State of Oklahoma and the text "OKLAHOMA CORPORATION COMMISSION". A navigation bar includes links for "OCC Home", "About Us", "Industry", "Consumers", "Divisions", "Complaints", "Conducting Business", and "Dockets & Agendas". The "Divisions" menu is open, listing various departments such as Administration, Administrative Proceedings, Consumer Services, General Counsel, Information Technology, Oil and Gas, Petroleum Storage Tank, Public Utility, and Transportation. A sub-menu for "Oil and Gas" is also visible, listing items like Annual Reports, Brownfields, Complaint Form, Databases, Data Files, Departments, District Offices, Electronic Forms, Forms, Imaged Documents, Other Info, Publications, and Rules. The "Imaged Documents" option is highlighted. Below the menu, there are portraits of Commissioner Todd Hiatt and Chairman Bob Anderson, along with a "Hot Topics" section listing recent news items such as "OCC response to issue of induced seismicity", "Pipeline Safety Notice", "Wind Power Notice", "PSO Rate Case", "Presentations of EPA, DEQ and SPP regarding the EPA's proposed 'Clean Power Plan'", and "FBI warns of utility scam".

The next screen contains a list of the types of records that are imaged. Select the type of document you want to look at - usually “Oil and Gas Well Records” for completion and plugging reports, “OAP Orders and Case Files” for orders and applications such as pooling, spacing, etc., or “Oil and Gas Production” for oil volumes.

To find a copy of a well record including permit-to-drill, spud report, completion report, plugging report, change of operator, choose "Oil and Gas Well Records Forms". For well records there are several different search criteria. As with all OCC databases, providing too much information can affect the accuracy of your search results, however, it's often helpful to enter the legal description and the form number if you want to limit your search to just permits-to-drill or just completion reports. To search by legal description, run all the digits together as shown in the example on the screen. Enter your search criteria and click "Search".

The screenshot shows a web browser window titled "Test - Microsoft Internet Explorer provided by Oklahoma Corporation Commission". The address bar shows the URL "http://imaging.occeweb.com/imaging/OGWellRecords.aspx". The page content includes a "Home" button, a title "OCC Imaging - OG Well Records", and a search form with the following fields and examples:

- Form #: 1002A (dropdown menu) with the instruction "Choose Form # from the drop down box".
- Legal Location: 1613n11w (text input) with the instruction "example: 0711N10E or 1201N24ECM" and a checkbox "Check to exclude ECM Legal Locations".
- API #: (text input) with the instruction "example: 00724967".
- Well Name: (text input) with the instruction "example: 'Hudson 1-12' or 'hudson'".
- Operator #: (text input) with the instruction "example: 01701-0 or 01701".
- District #: (dropdown menu) with the instruction "example: 1".
- Effective/Approved Date: (text input) to (text input) with the instruction "example: 1/1/2001 or 1/1/2001 to 1/31/2001".
- Scan Date: (text input) to (text input) with the instruction "example: 1/1/2001 or 1/1/2001 to 1/31/2001".

Below the form, there is a text prompt: "Type in your search criteria then click the 'Search' button." and two buttons: "Search" and "Clear". A second "Home" button is located at the bottom of the form area. The browser's status bar at the bottom shows "Done" and "Internet | Protected Mode: On".

When the list of records appears it may be necessary to view several of them to locate the record you are looking for. Some wells will be identified by a combination of well name, API number, quarter section, form number, etc. Click on the blue ID number to the left of the item you are interested in and an image of the document will appear.

You can customize your search by using the wild card, “%”, in place of section number or other information and by including a date range in the “Effective/Approved Date” field. Use this format for dates : 1/1/2015.

Form # Choose Form # from the drop down box

Legal Location example: 0711N10E or 1201N24ECM
 Check to exclude ECM Legal Locations

API # example: 00724967

Well Name example: "Hudson 1-12" or "Hudson"

Operator # example: 01701-0 or 01701

District # example: 1

Effective/Approved Date to example: 1/1/2001 or 1/1/2001 to 1/31/2001

Scan Date to example: 1/1/2001 or 1/1/2001 to 1/31/ 2001

Type in your search criteria then click the 'Search' button.

To search for an order or application go to “OAP Orders and Case Files” and enter the order number or the cause number. When searching by cause number it is important to also complete the field “Case Type”, usually CD for oil and gas. This database contains all Commission records including transportation and public utilities, not just oil and gas, and sometimes the same case number might be assigned to different case types. Searching by cause number will retrieve all the documents in the case file including the order, if it has been issued. Searching by order number will only retrieve the order.

Documents can be saved and printed.

Internet | Protected Mode: On 125%

Although oil production volumes are not posted on the “Well Browse” or “Data Mining” databases, it is possible to obtain oil volumes in the “Imaged Records” database because all Form 300R reports submitted by the oil purchasers are imaged. From the list of types of imaged records, choose “Oil and Gas Production.” You will need two pieces of information about your lease to look up oil production, the purchaser number of the oil purchasers for the well or lease and the Production Unit Number (PUN) assigned to the well or lease by the Oklahoma Tax Commission. Both of these numbers can be found on the OTC website which we will review later.

To search for oil production, choose Form 300R in the first field of the search screen and enter the purchaser number in the appropriate field. Do not confuse purchaser number with operator number.

The screenshot shows a web browser window titled "OGProd - Microsoft Internet Explorer provided by Oklahoma Corporation Commission". The address bar shows the URL "http://imaging.occeweb.com/imaging/OGProd.aspx". The browser's Favorites bar includes "Oklahoma Corporation Co...", "Free Hotmail", "Web Slice Gallery", and "Indy Hilton". The main content area displays the "OCC Imaging - Oil & Gas Production" search form. The form includes the following fields and options:

- Form #**: A dropdown menu set to "300R" with a link "Select Form # from drop down box".
- Production Date**: A text input field with an example "example: 01/2004".
- Purchaser #**: A text input field containing "21108" with an example "example: 01079-0 or 01079 or 1079".
- Allowable Year**: A text input field with an example "example: 2004".
- Operator #**: A text input field with an example "example: 01079-0 or 01079 or 1079".
- Effective Date**: Two text input fields separated by "to", with an example "example: 1/1/2001 or 1/1/2001 to 1/31/2001".

Below the fields, there is a prompt: "Type in your search criteria then click the 'Search' button." and two buttons: "Search" and "Clear". A "Home" button is located at the top left of the form area. The browser's status bar at the bottom indicates "Internet | Protected Mode: On" and a zoom level of "125%".

Click "Search" to obtain a list of Form 300R reports submitted by the purchaser you chose. Look at the second column to find the production month you want to search. Usually, all the January reports for all years are sorted together, then February, etc. Sometimes they are not so you may need to search a little bit for your record.

Click on the blue I.D. number in the column to the left of the date you are interested in to open the record.

Most Form 300R reports look similar to this one submitted by Sunoco. They are sorted by PUN and may or may not reflect the well or operator name. In most cases, the reports are listed numerically by PUN. Look down the list until you find the PUN for your well or lease to get the monthly volume. Repeat the process to obtain production volumes for another well or month.

If you need assistance navigating the database, contact the Oil and Gas Public Assistance Department at (405) 521-2613.

OCC CASE PROCESSING ONLINE INSTRUCTIONS

This database is used to look up OCC causes, applications, orders, hearing dispositions, etc.

When you get to our home page, hold your cursor over the gold button at the top of the screen labeled "Divisions". Don't click but move your cursor down the menu to "Oil and Gas" then move it over to the menu that appears to the right and click on "Databases".

The screenshot shows the Oklahoma Corporation Commission website in a browser window. The address bar displays <http://www.occeweb.com/>. The page features the Oklahoma seal and the text "OKLAHOMA CORPORATION COMMISSION". A navigation bar includes links for "OCC Home", "About Us", "Industry", "Consumers", "Divisions", "Complaints", "Conducting Business", and "Dockets & Agendas". The "Divisions" menu is open, showing a list of departments: Administration, Administrative Proceedings, Consumer Services, General Counsel, Information Technology, Oil and Gas, Petroleum Storage Tank, Public Utility, and Transportation. A secondary menu is visible to the right of the "Oil and Gas" item, listing: Annual Reports, Brownfields, Complaint Form, Databases, Data Files, Departments, District Offices, Electronic Forms, Forms, Imaged Documents, Other Info, Publications, and Rules. Below the navigation, there are portraits of Commissioner Todd Hiett and Chairman Bob Anderson, and a "Hot Topics" section with links to "OCC response to issue of induced...", "Pipeline Safety Notice", "Wind Power Notice", "PSO Rate Case", and "Presentations of EPA, DEQ and SPP regarding the EPA's proposed 'Clean Power Plan'". The browser's status bar at the bottom shows the URL <http://www.occeweb.com/Orawebapps/OCCOraWebAppone.html>.

Scroll down and click on “Case Processing Web Application”.

The screenshot shows a web browser window with the URL www.occeweb.com/OraWebapps/OCCOraWebAppspone.html. The page content includes:

- If you have any questions, you may call our helpline at (405)521-3636 between the hours of 8:00 am to 4:30 pm Monday through Friday.
- You will be prompted to download JInitiator the first time you use our web applications. This is required to run the Case Processing and Archived Oil and Gas Database. Left click the bar that appears and tell it to run the ActiveX control.

MINERAL OWNER ESCROW ACCOUNT OWNER SEARCH

The Mineral Owner Escrow Account was created to monitor and maintain bonuses and royalties owed to unlocatable pooling respondents. MOEA funds that are received at the Oklahoma Corporation Commission are remitted to the Unclaimed Property Department at the Oklahoma State Treasurer's Office. They are held there until they are claimed by the rightful owners. Escheated funds are reported by owner name, therefore, the MOEA Owner Search database can be searched by name to locate pooling revenue.

When you get to our home page hold your cursor over the gold button at the top of the screen labeled "Conducting Business". Don't click but move your cursor down the menu to "Unlocated Mineral Owners" and click there.

Vice-Chairman Todd Hiatt **Commissioner Bob Anthony**

OKLAHOMA TAX COMMISSION

The Oklahoma Tax Commission has recently made some oil and gas well information available to the public on their website at www.ok.gov/tax/. This database allows you to retrieve operator and well production information. Here you can also find the PUN and purchaser number for a well or lease that is necessary to look up oil production in the OCC “Imaged Records” database.

From the menu at the top, choose “All Taxes” and then click on “Gross Production”.

The screenshot shows the Oklahoma Tax Commission website. At the top, there is a search bar with the text "Search Site" and a "GO" button. Below the search bar is the Oklahoma Tax Commission logo and a large banner for "E-File Your Oklahoma Resident Income Tax Return For Free". The banner includes a "Do you Qualify?" link and a "1 2 3 4 5 6" navigation bar. Below the banner is a navigation menu with the following items: "Individuals", "Businesses", "All Taxes", "Forms & Publications", "Online Services", and "Tax Professionals". The "All Taxes" menu is open, showing a list of options: "Income - Individual", "Income - Businesses", "Motor Vehicles", "Gross Production", "Ad Valorem", "Sales & Use", "Withholding", "Alcohol & Tobacco", "Motor Fuel", "Miscellaneous Taxes", and "Payment Options". The "Gross Production" option is highlighted, and a sub-menu is open for it, showing: "view Gross Production", "Online Registration & Reporting Systems", "Additional & Reporting Guidelines", "Rates & Rebates", "Royalty Interest to Nonresident Interest Owners", "Forms & Rules", "Obtaining Crude Oil and Natural Gas Production History Information", and "Informational & Reporting Guidelines". Below the navigation menu is a "Top Resources" section with a list of links: "Check on a Refund", "Online Business Registration", "New Business Workshop", and "Developer/Preparer Info". To the right of the "Top Resources" section is a "News & Notices" section with a list of news releases: "April 2015 Sales & Use Tax News Release", "March 2015 Sales & Use Tax News Release", and "Tag agency computers will be unavailable March 14, 2015". Below the "News & Notices" section is a "View More" button. Below the "View More" button is a "File & Pay" section with a "Register Here" button and a "Log In" link. Below the "File & Pay" section is an "About Us" section with a photo of a woman and a list of links: "About Us", "Employment", and "Training & Education". At the bottom of the page, there is a URL: "taxes/Gross_Production/index.html".

From the list at the bottom of the page, choose “Public PUN Search” and then “Search PUN”.

Home / All Taxes / Gross Production

Gross Production

The Gross Production Tax is a tax on the production of oil and gas produced in Oklahoma. Generally, the tax is remitted to the Tax Commission on a monthly basis by the first purchaser.

Notice Regarding Industry Testing

Industry may resume testing on the gross production reporting test site on Monday, April 6, 2015. Attached are the registration instructions for companies that still need to register for the test system. If software developers wish to test their new reporting software, and are not a gross production tax remitter, please contact Jessica Roberts to complete the programmer registration. Please note that the OTC is aware of a bug in the system that is causing users to be arbitrarily logged off the system without warning. The system developers are working diligently to fix this issue, but OTC does not wish to further delay industry testing. A notice will be posted when the issue is fixed.

The go-live date for the new reporting system remains June 1, 2015. After the go-live date, all production reports, prior period adjustments, and payments must be completed on either the new electronic system or the new paper reports. If a company believes that they will have an issue meeting the June 1st date, please contact Mark Hendrix or Morgan Lankford.

Programmer's Note: The OTC is requesting that remitters utilize the single-line multiple exemptions format. If a remitter has a PUN with multiple exemptions, please combine volumes, values, and decimal equivalents for all exemptions and use exempt code 12. For prior period adjustments, companies may use either the single-line or multi-line exemption format when backing out the original report. For an example of a single-line multiple exemptions, please visit our notice page.

Notice of New Forms and File Layouts for Gross Production Reporting

Click here for forms and file layouts that will be utilized in the new gross production tax reporting system, as well as, important notices regarding changes to the monthly tax report procedures.

Welcome to the Oklahoma Tax Commission's Online Gross Production System

This system will allow users to register new wells, request assignment of the lease production unit number (PUN), make changes to existing lease record information, and make all other changes currently found on the Form 320-C.

	Navigation Choices Search PUN Register new PUN Change PUN information Change operator for multi PUN's Download tax rate Search & Downloads, Select from Menu	Login Create Account Forgot Account Name Forgot Password Contact Us Login Help
--	---	--

Click the button next to the type of search criteria by which you wish to search and enter that information, usually legal description. Click "Search" to display a list of wells or leases in that description.

No.	PUN	LeaseName	WellName/Number	PUN Status
1	01705476910000	GLEN MILLER #29-1		Plugged-Abandoned
2	01705476900000	MILLER UNITY 1-29		Plugged-Abandoned
3	01709566203095	TRACT 20		Plugged-Abandoned
4	01720458900000	WEDMAN 1-29H	WEDMAN 1-29H	Active

Click the PUN to the left of the well name to get more information about the well or lease.

The screenshot displays the Oklahoma Tax Commission's Gas Production System interface. A modal window titled "PUN Details" is open, showing information for a specific Production Unit (PUN). The background shows a navigation menu with options like Home, Register, Public PUN Search, List of Approved/Bonded Companies, Incentive Well Download, and Log in.
